BORN AGAIN THROUGH THE BLESSINGS OF FIRE AND PAIN !

STAN KRUML is a man of tall hats & many experiences. Having been a working cowboy all of his life, Stan knows the meaning of hard work and sacrifice. Stan lives his life as a servant of God.

With every situation he finds himself in, Stan finds the positive message. He has come to understand that there is an eternal lesson in every experience. Every moment that we experience is a unique opportunity, specially designed for us by the Creator, in order that we can grow and become more like Him! In all that Stan has endured through his 64 years, he has never walked through the shadowed valleys alone. He has had his Best Friend with him every step of the way! But it was not until he almost lost his life, and his hands, that Stan discovered the true meaning of walking with the Lord in real faith.

As a Hollywood stuntman, Stan was literally burned alive at 2000 degrees and miraculously survived! For two years he endured 24 major surgeries to rebuild what was left of his hands. Then, two more years of healing. Stan was completely stripped of his ability to live life as he knew it. What was a cowboy and stuntman to do when he no longer has hands to work with? Stan was forced to recreate himself spiritually, emotionally, physically, and financially. Stan now sees each traumatic event in his life as a blessing. His message is so true to life that you

Join Stan as he takes you through his incredible journey of pain, discovery, hope, and renewal. His fascinating testimony will have you spellbound and his message will change you forever!
